

Blazing rap paired with soulful vocals, underlined with pulsating basslines, captivating keys and archaic drums – this is **Mantik**!

May it be the soul, the rap, the funk, the psychedelic, the jazz or the occasional pop song – **Mantik** has a variety of shapes and forms. The band from Bern invites their audience on a journey through deepest forests and secret lagoons, always accompanied by melodious lyrics and a steady groove. They travel across the infinite axis of time, passing peckish satellites and escape the fiery breath of rebellion, towards the antipode of gravitation!
